

JINR Newsletter #14, 17 April 2025

Dear colleagues and friends,

Work on the cooperation development with the JINR Member States continues. Members of the Bulgarian National Assembly visited JINR. The Joint Institute hosted a meeting on collaborative research with the Federal Medical and Biological Agency of Russia. Representatives from Belarus, Kazakhstan, and Russia started the JEMS training course for decision-makers this Monday in Dubna.

The JINR Flagship Projects are steadily progressing. This week, the 15th Collaboration Meeting of the MPD Experiment at NICA gathered more than 190 participants at VBLHEP and online. The Baikal-GVD Neutrino Telescope has recently detected a galactic neutrino flux with the energy above 200 TeV.

QA session with Yuri Oganessian, results of the Spring IT School, FLNP's cooperative research into air pollution with students and schoolchildren, and much more – in this issue of the JINR Newsletter.

Cooperation

Delegation from Bulgaria visited JINR

On 7–8 April, members of the Bulgarian National Assembly, Yordan Todorov and Angel Yanchev, visited the Joint Institute for Nuclear Research. The delegates became familiar with JINR's scientific infrastructure and research projects.

JINR and FEFU carry out volunteer ecological monitoring as part of UN project

FLNP and Far Eastern Federal University are studying the effect of air pollution on human health. Schoolchildren from the Sirius Primorye centre took part in the collection of mosses for biomonitoring. The data obtained will be used to improve the environmental situation in Primorsky Krai, Russia.

26th JEMS Training Course started at JINR

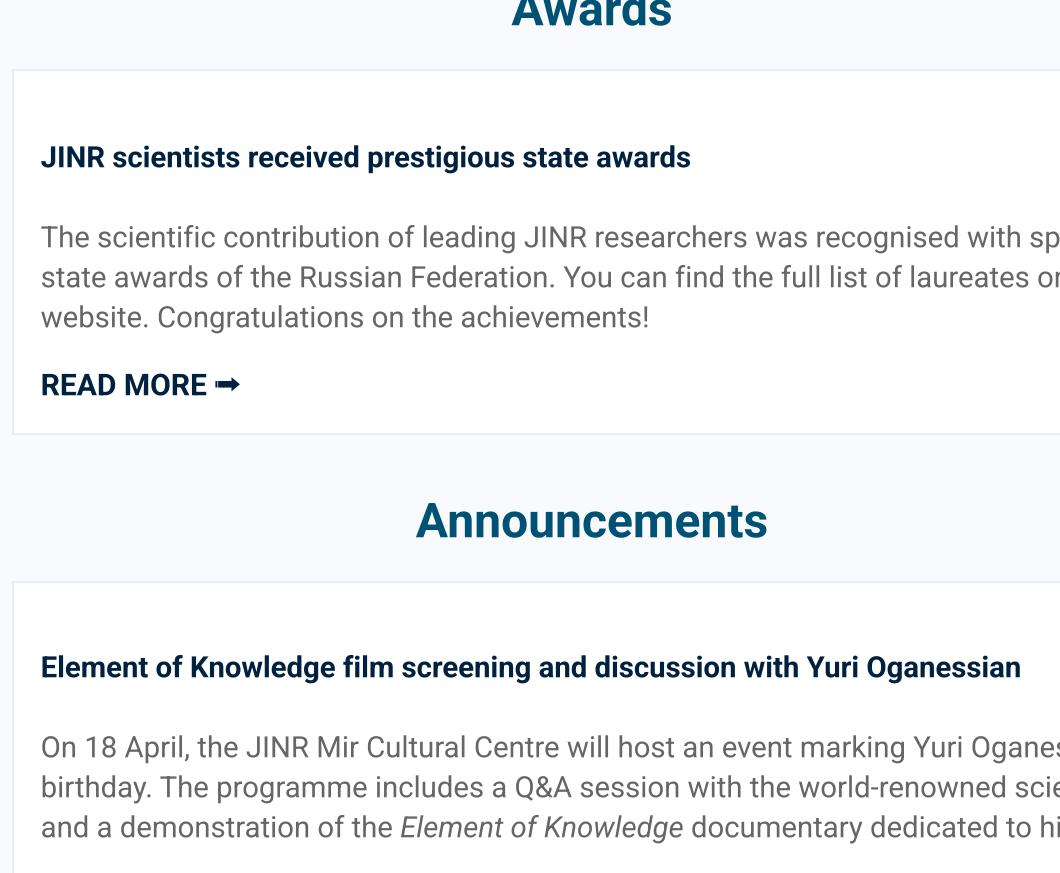

On 14 April, a one-week international training programme for decision-makers in science and international scientific cooperation (JEMS) has started at JINR. This time, 20 representatives from leading universities and institutes of Belarus, Kazakhstan and Russia are participating.

Conferences

15th MPD Collaboration Meeting at JINR

On 15–17 April, VBLHEP JINR is hosting the 15th Collaboration Meeting of the MPD Experiment at NICA in a hybrid format. The updated plan of the multi-purpose detector project was presented. The state of NICA, the main MPD systems, and the future physics research programme were discussed.

Research

Galactic neutrino flux with energy of 200 TeV detected by Baikal-GVD

Members of the Baikal-GVD Collaboration analysed the events registered from 2018 to 2023. Scientists confirmed the detection of neutrinos with calculated energies above 200 TeV. The article on the results of the study was published in the Astrophysical Journal.

Publications

Review of Particles and Nuclei, Letters journal, #2 2025

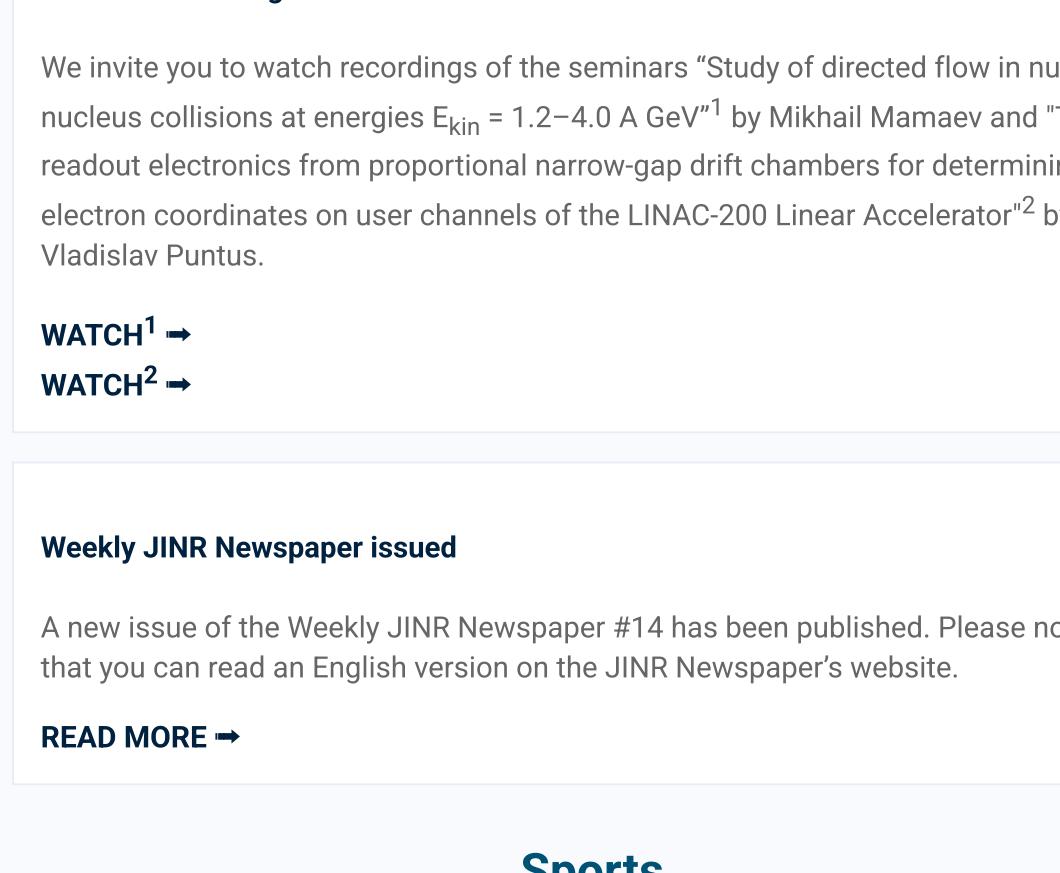

The JINR Publishing Department has issued the second part of this year's volume of the "Physics of Elementary Particles and Atomic Nuclei, Letters" journal that includes articles with the results of theoretical, experimental, scientific and technical, methodical, and applied research. You are welcome to get acquainted with Issue 2 on the JINR website.

Education

Spring IT School ended: "JINR is where your ideas can come true"

On 10 April, the JINR Spring School on Information Technology finished at MLIT. During two days, students from universities of the Russian Federation and the Republic of Belarus presented results of their works based on JINR research topics under the guidance of MLIT specialists.

Research

Element of Knowledge film screening and discussion with Yuri Oganessian

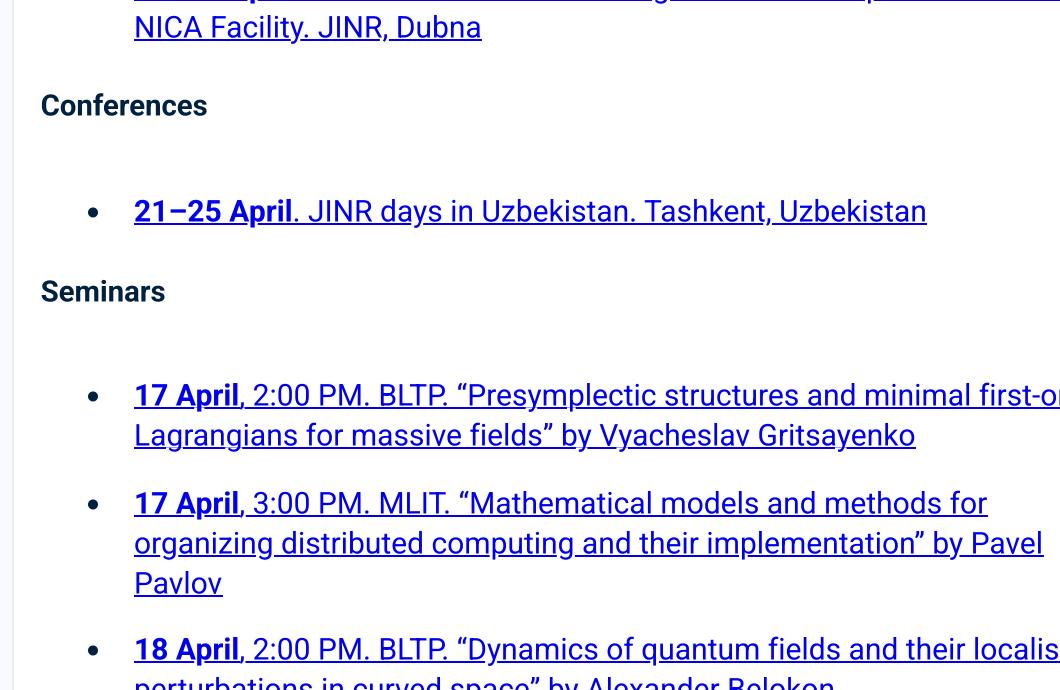

On 18 April, the JINR Mir Cultural Centre will host an event marking Yuri Oganessian's birthday. The programme includes a Q&A session with the world-renowned scientist and a demonstration of the Element of Knowledge documentary dedicated to him.

Upcoming Events

Education

- 14–16 April, Training Course "JINR Expertise for Member States and Partner Countries" (JEMS-26), JINR, Dubna

Collaboration Meetings

- 15–17 April, 15th Collaboration Meeting of the MPD Experiment at the NICA Facility, JINR, Dubna

Conferences

- 21–25 April, JINR days in Uzbekistan, Tashkent, Uzbekistan

Seminars

- 17 April, 2:00 PM, BLTP, "Presymplectic structures and minimal first-order Lagrangians for massive fields" by Vyacheslav Gritsayenko

- 17 April, 3:00 PM, MLIT, "Mathematical models and methods for creating distributed computing and their implementation" by Pavel Pavlov

- 18 April, 2:00 PM, BLTP, "Dynamics of quantum fields and their localised perturbations in curved space" by Alexander Belokon

- 18 April, 3:00 PM, SU(3) model in nuclear physics (introduction to algebraic models of nuclear structure) by Hubert Ganey

- 23 April, 11:00 AM, BLTP, "Quantum field theory without divergences: the case of non-perturbative theories" by Yulia Ageeva

- 23 April, 3:00 PM, BLTP Dissertation Council, "Following the leading logarithmic QED approximation" by Uliana Voznaya

Culture

- 21 March – 21 April, Daily from 1:00 to 7:00 PM (except Monday), JINR Mir Cultural Centre, JINR scientists' art exhibition

- 1–25 April, Weekdays from 2:00 to 7:00 PM, JINR Scientists' Club, Photo exhibition "About Dubna and more..."

- 17 April, 6:30 PM, JINR Universal Public Library, JINR Cinema Club

- 18 April, 6:00 PM, JINR Universal Public Library, Hairpin book club

- 18 April, 6:00 PM, JINR Mir Cultural Centre, Element of Knowledge film screening and discussion with Yuri Oganessian

- 18 April, 6:00 PM, JINR Universal Public Library, English speaking club

- 18 April, 6:30 PM, JINR Universal Public Library, Scrapbooking club's meeting

- 19 April, 6:00 PM, JINR Mir Cultural Centre, Music Box concert

- 19 April, 6:00 PM, JINR Mir Cultural Centre, Vocal music concert

- 20 April, Zvenigorod Manege, Trip by JINR Scientists' Club

For Kids

- 17 April, 5:00 PM, JINR Universal Public Library, Class for children

- 18 April, 5:30 PM, JINR Universal Public Library, Growing up from "Let's REAders"

- 19 April, 6:00 PM, JINR Universal Public Library, SmART classes for children

- 19 April, 6:00 PM, JINR Universal Public Library, "Let's REAders"

- 19 April, 6:00 PM, JINR Universal Public Library, Meeting of book club for teenagers
